BOSSES SEEK TO OUST THE GOVERNOR WHO BACKED MINERS

*Gov. Hunt of Arizona Refused to Let Strikebreakers and
Gunmen Butt In on Mine Troubles—Now the
Owners Are After His Scalp.*

BY GILSON GARDNER

Washington, Jan. 7.—Because Gov. George B. Hunt of Arizona has not permitted the importation of strikebreakers and gunmen in the copper mining region where 5,000 miners are on strike, petitions are being circulated by the mine owners seeking his recall. The chief owners are Cleveland H. Dodge, William Church Os-

born and some other New York multimillionaires.

The situation has been investigated by the industrial relations committee of this city, which is authority for the statement that whereas in Colorado disorder and slaughter unparalleled followed the importation of strikebreakers and gunmen by permission of Gov. Ammons, in Arizona there has been profound peace.
